International World of Vacations Partners with Travel Solutions for Unprecedented Around-the-Clock Customer Service and Travel Technology

October 18, 2007 – International World of Vacations (IWV), a recognized leader in home-based online travel, and Travel Solutions, the seventh largest corporate travel management company in the nation, have reached what is projected to be a \$14.7-million dollar financial commitment from IWV in the joint venture agreement. The agreement provides unprecedented customer service with a live call center based here in the U.S. combined with proprietary travel technology for IWV's home-based travel representatives.

Sandra Mumm, IWV President of Operational Development, says, "By partnering with Travel Solutions, International World of Vacations is creating an unprecedented approach to customer service and travel booking by providing superior live and online customer service and a user-friendly technology to our home-based agents and customers."

Travel Solutions, in conjunction with IWV Technologies and other technology companies, will provide IWV's travel representatives integration with a Global Distribution System (GDS), Customer Relationship Management (CRM) system, around-the-clock, user-friendly booking capabilities, and customer support to effectively run their own home-based travel business. This partnership also allows IWV to offer vacation packages from leading travel suppliers at competitively low prices. The technology is specially tailored to the unique structure of International World of Vacations, based on a Dynamic Marketing System.

"IWV is a complete turnkey travel business like no other in the industry today. Our unique business structure allows both the experienced and inexperienced travel agent to have access to all of the functionalities they need to successfully sell travel, market and manage their business, and track travel sales," says Jim Allen, IWV Chairman.
